Products

Moraima Albarino

Viña Moraima S. Coop. Galega is a small wine cooperative that was established in 2006 in the district of Barro (Pontevedra), which from the very beginning has been registered under the "Rias Baixas" designation of origin. Viña Moraima is composed of multiple wine producers, some of them shaped by century-old family traditions, who decided to come together to produce wine with the distinct character of the vineyards on the Salnés Valley slopes. Building on an agricultural system of integrated production, the cooperative has primarily invested in state-of-the-art technical equipment for the winery designed to get the most quality from their vines. Viña Moraima is dedicated to 100% Albariño, single varietal wines in which one can fully appreciate the character of the region.

Total acres planted : 29.6 Acres

Varietals planted :

Albariño
