

## Domaine Clos de la Chapelle

### *Meursault Cuvée Confluence*

Cuvée Confluence is special blend of select barrels from our Meursault En Marcausse vineyard and the young and some old vines of Meursault Les Vignes Blanches.

So this represents a 'confluence' of old and young, two vineyards, and two terroirs which abut each other. While En Marcausse and Les Vignes Blanches are completely contiguous, there is an important shift in the soil in the transition. En Marcausse attracts more drainage because of its proximity to the break in topography to the west and its higher clay content.

Grape varieties : Chardonnay
