Hagave Spiced Nectar

HAGAVE Spiced Nectar is the creation of Salvatore Tafuri, a renowned beverage director, whose career accolades include a Michelin star, 3 stars from the NY Times and top 20 best cocktail bar in the USA with 701 West. Salvatore realized the need for a product that would create consistency and simplicity when it came to creating spicy beverage recipes. Salvatore Tafuri continues to be very active with the hospitality community and still helps to create cocktail recipes and beverage consulting for some of the most successful hotels, restaurants and bars in the country. HAGAVE is a non-alcoholic spicy mixer, a harmony of ingredients including organic agave nectar and natural extracts, with enchanting notes of jalapeno and orange blossom. HAGAVE is a spiced nectar that brings a high quality, consistent spicy flavor to the drink category. The name "Hagave" is a play on the key ingredient, agave, and the spicy effect it produces when combined with the other ingredients to create hotness and heat. HAGAVE offers a spicy flavor enhancer that can partner with any spirit to provide a premium, consistent, spicy note to any creation. With HAGAVE, you can create a lower calorie, premium spicy cocktail that will always taste the same.
