

DRY FLY DISTILLING

Washington, USA

Dry Fly Distilling blends the time-honored traditions of fly fishing, such as Patience, Precision, Persistence, Grace, and Art, with an innovative farm-to-bottle approach to produce world-class distilled spirits. Since its inception in 2007, Dry Fly has become one of the premier craft distillers in the United States. Their first products, Dry Fly Washington Wheat Vodka and Dry Fly Washington Dry Gin have won both rave reviews and International awards including BEST VODKA at the 2009 San Francisco World Spirit Competition. Sourcing the best ingredients from small sustainable local farms and taking the time to ensure the processes highlight those ingredients is paramount at Dry Fly Distilling.
