

SACRED VALLEY

Sacred Valley is produced by Fundo Tres Generaciones, originally established in 1856, in the fertile Ica Valley in Peru. They own their own vineyards, cultivate their own grapes, and control the entire distillation process. This ensures a consistently high level of quality year after year and why they win all those awards. Using centuries-old techniques, this craft Pisco is distilled to proof in copper pot stills without using any additives, coloring or flavors and creates the perfect pisco for making a proper Pisco Sour. Sacred Valley is artisanal with small batch limited production. Distillation occurs only during March or April after the fall grape harvest.
