"Sérénité" Brut Nature

Sérénité (Serenity) is a spiritual name inspired by the traditional methods of winemaking practiced by monks centuries ago. For Frank Pascal, drinking Sérénité wine evokes a sense of wellness, emotional balance, and alignment for those who do so mindfully. Compared to modern winemaking practices, the historic approach involved prayers, sacred songs, and the laying on of hands to enhance the wine's vibrational energy. As a result, Sérénité wine is described as vertical, light-infused, imbued with energy, highly mineral, precise, and vibrant.
