

Lift

## *Riesling*

Lift is produced by removing the alcohol from a traditionally vinified Riesling. It all begins in the vineyards of the Rheinhessen region, where Riesling grapes are grown with the specific intention of producing an alcohol-free wine.

**Grape varieties** Riesling

### **Tasting notes**

A classic German Riesling, clean fruit flavors and crisp acidity, with the alcohol removed, so you can enjoy a glass anytime! Bright and lively with zesty lime, fresh peach and apple flavors. Very versatile, you can pair it with duck, shellfish, chicken and pork dishes. Try it at brunch or with your favorite Hawaiian pizza.
