

Bodegas Sierra Salinas

Mo Monastrell

Viticulture: Sierra Salinas' vineyards are currently in the process of being converted to certified organic viticulture, with the goal of respecting the environment and taking advantage of the potential of dry farmed viticulture.

Grape varieties 100% Monastrell

Soil Rocky, chalky soils that are very shallow - between one foot and three and a half feet deep. Very loose soils with good drainage situated right over a limestone mother rock.
