## Beaujolais-Villages

The schistous terroir of the northern Beaujolais region is considered to be ideal for the Gamay grape. Here the vineyards sit on the sunny south- and southeast-facing slopes west of the Saône River. Bright sunshine and dry, warming winds help the grapes reach optimal ripeness.

**Grape varieties** 100% Gamay

**Soil** Sandy soils with red granite and schist

### Tasting notes

Vines planted at the base of the Moulin-à-Vent hill produce a Beaujolais Villages of a remarkably rich texture. The smooth, medium-bodied wine with notes of plum, strawberry, cherry, and raspberry leads to a supple palate with a smooth vanilla and spice finish. Enjoy with cured meats, baked ham, pork, chicken, and pasta dishes. Also goes well with spicy Mexican fare.
