

## Barona Bodegas Y Viñedos

### *Ribera del Duero*

**Viticulture:** Francisco Barona farms 28 sites planted in Roa, Anguix, La Aguilera, and Pedrosa de Duero organically. These are old field-blend vineyards of Tinto Fino with other indigenous varieties. Barona obtains from the use of chemically synthesized fertilizers, pesticides, herbicides, or fungicides, and does not irrigate. He works where necessary with cover crop to support the plant's natural defenses and to fix nitrogen in the soil.

**Grape varieties** Primarily Tinto Fino (Tempranillo), intermixed in the vineyards with Garnacha Tinta, Albillo, Bobal, Jaen, and a host of other field blended indigenous varieties.

**Altitude** 815m - 900m ASL

**Soil** Calcareous clay soils intermixed with sand and gravel

**Banville**
