#### Barona Bodegas Y Viñedos

# Ribera del Duero

Viticulture: Francisco Barona farms 28 sites planted in Roa, Anguix, La Aguilera, and Pedrosa de Duero organically. These are old field-blend vineyards of Tinto Fino with other indigenous varieties. Barona obstains from the use of chemically synthesized fertilizers, pesticides, herbicides, or fungicides, and does not irrigate. He works where necessary with cover crop to support the plant's natural defenses and to fix nitrogen in the soil.

FRANCISCO BARONA

Grape varieties Primarily Tinto Fino (Tempranillo), intermixed in the vineyards with Garnacha Tinta, Albillo, Bobal, Jaen, and a host of other field blended indigenous varieties.

Altitude 815m - 900m ASL

Soil Calcareous clay soils intermixed with sand and gravel
